

Once upon a time...
Ordinary people did extra-ordinary things...

Go back in time – to that golden age
When everyday and the future
was full of opportunity and excitement,
the promise, with confidence and optimism,
the energizing blue sky
of creative imagination,
to experience adventure
and pure exhilaration,

Now, step forward in time to the present

Ideas, dreams, freedom and independence
personal initiative and response-ability,
character and competence and resolution,
You the individual, hands on and involved,
in your zone with enthusiasm and energy,
integrity of values and audacity of action.

True identity, pure ability and super-powers,
You can express the best of who you are.

Look forward, advance now and
create the future...

The future is visionary...it is created by
Individual creative imagination, effort and
the alternate reality creation engine.

This includes you, the pro-active individual
people working to build
great things together.

We would like to introduce you

to the aviation and aerospace future that we
envision in Renfrew County

At the Pembroke & Area Airport : CYTA
